

Eliminates Blue-Green Algae and Keeps Water Clear.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMAN AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield or shielded safety glasses). Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing dust. Wash thoroughly with soap and water immediately after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. When prolonged or repeated contact may occur, use chemically resistant gloves and full body clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to birds. Do not contaminate water when cleaning equipment or disposing of equipment wash water or rinsate. GreenClean Granular is **NOT** intended for use in drinking water.

PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. **Corrosive.** Mix only with water in accordance with label instructions. Do not bring in contact with other pesticides, cleaners or oxidative agents.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. During amphibian breeding seasons, do not apply near shallow water body margins.

Corrosive. Causes irreversible eye damage. Wear protective eyewear (goggles, face shield, or safety glasses) and gloves when applying GreenClean Granular. Wash hands after use.

Apply GreenClean Granular to any listed water and surface sites.

- Application surfaces include:

CONTAINERIZED WATER SURFACES (with no outflow to the natural environment)

Water Gardens, Fish Ponds, Ornamental Pools/Ponds, Ornamental Waterfalls, Fountains, Standing Water, Irrigation Ponds. GreenClean Granular is **NOT** intended for use in drinking water.

WATER TREATMENT

Use GreenClean Granular to treat, control, and prevent a broad spectrum of planktonic and filamentous blue-green algae. Effects of treatment are immediately apparent (bubbling, bleaching/discoloration of algae, floating of dead organic matter). Waters treated with GreenClean Granular are permissible to be used without interruption.

DETERMINING WATER VOLUME

Measure length (L), width (W), and average depth (D) in feet (ft) or meters (m) and calculate volume using one of the following formulas:

Square/ Rectangular:	$L(ft) \times W(ft) \times D(ft) \times 7.5 = \text{Gallons}$ $L(m) \times W(m) \times D(m) \times 1000 = \text{Liters}$
Circular/ Elliptical:	$L(ft) \times W(ft) \times D(ft) \times 5.9 = \text{Gallons}$ $L(m) \times W(m) \times D(m) \times 786 = \text{Liters}$

1 acre-foot of water = water measuring:
• 208.7 ft long x 208.7 ft wide x 1 ft deep • 43,560 cubic feet • 325,851 gallons • 2,780,000 pounds

$$\frac{\text{Avg. Length}(ft) \times \text{Avg. Width}(ft) \times \text{Avg. Depth}(ft)}{43,560} = \text{acre-feet of water} \quad \frac{\text{Avg. Length}(ft) \times \text{Avg. Width}(ft)}{43,560} = \text{acres}$$

APPLICATION RATES

General Treatment Rates:

	HEAVY ALGAE GROWTH	LOW ALGAE GROWTH / MAINTENANCE
GRANULAR: Small Volume	3-16 Tablespoons of GreenClean Granular per 1,000 gallons of water.	1-5 teaspoons of GreenClean Granular per 1,000 gallons of water.
<i>For example: backyard water gardens, ornamental ponds, ornamental waterfalls (3 tsp. = 1 Tbs., 16 Tbs. = 1 Cup, 2 Cups = 1 lb.)</i>		
GRANULAR: Large Volume	90-500 pounds of GreenClean Granular per million gallons of water*. - OR - 30-170 pounds of GreenClean Granular per acre-foot of water*.	9-50 pounds of GreenClean Granular per million gallons of water. - OR - 3-17 pounds of GreenClean Granular per acre-foot of water.
<i>For example: larger containerized residential ponds or water gardens *Multiple containers of GreenClean Granular will be needed.</i>		

Rates for Treating String Algae:

POND SIZE	CURATIVE RATE
50 gallons	1 Tablespoon
100 gallons	1.5 Tablespoons
500 gallons	0.5 Cup
1,000 gallons	1 Cup
5,000 gallons	5 Cups
10,000 gallons	10 Cups

Application Instructions for Treating String Algae on Ornamental Waterfalls & Streams:

- Step 1: Check pH levels before applying GreenClean Granular. GreenClean Granular can raise pH levels up to 1 unit.
Step 2: Apply early in the morning
Step 3: Turn off circulation.
Step 4: Apply GreenClean Granular to affected areas - including waterfalls and streams.
Step 5: Turn circulation back on after 10-20 minutes.

Note: 1 Lb of GreenClean Granular by weight = 2 Cups in volume

Rates for Treating Green Water Algae:

POND SIZE	HIGH CURATIVE RATE	LOW CURATIVE RATE
50 gallons	1 Tablespoon	0.5 teaspoon
100 gallons	1.5 Tablespoons	1 teaspoon
500 gallons	0.5 Cup	1.5 Tablespoons
1,000 gallons	1 Cup	3 Tablespoons
5,000 gallons	5 Cups	1 Cup
10,000 gallons	10 Cups	2 Cups

Application Instructions for Treating Green Water Algae:

- Step 1: Check pH levels before applying GreenClean Granular. GreenClean Granular can raise pH levels up to 1 unit.
Step 2: Apply early in the morning
Step 3: Shock with GreenClean Granular at the high curative rate.
Step 4: Treat as needed once per week with GreenClean Granular at the low curative rate in conjunction with water conditioners (such as beneficial bacteria).

Note: 1 Lb of GreenClean Granular by weight = 2 Cups in volume

Pond Cleaning:

HEAVY GROWTH	LOW GROWTH
4-6 Cups per 1,000 square feet	2-4 Cups per 1,000 square feet

Note: 1 Lb of GreenClean Granular by weight = 2 Cups in volume

Application Instructions for Pond Cleaning:

- Step 1: Drain pond (remove fish & plants)
- Step 2: Apply GreenClean Granular to all surfaces
- Step 3: Rinse with water after 10-20 minutes
- Step 4: Drain pond
- Step 5: Re-fill pond (replace fish & plants after de-chlorinating)

GENERAL TREATMENT NOTES

- Treat only a half or a third of any large body of water at a time.
- Control is most easily achieved when algae are not yet well established. Treat when growth first begins to appear.
- Dense, thick mats of algae throughout the water volume are indicative of heavy algae growth.
- Apply early in the morning under calm, sunny conditions, and when water temperatures are warm. Sunlight and higher temperatures both enhance GreenClean Granular activity; GreenClean Granular will work more slowly in colder water.
- Skim any dead algae and organic matter that rises to the water's surface after treatment. Allowing dead organics to sink and decay will provide a food source and additional nutrients that stimulate algae re-growth and further blooms.
- If using in conjunction with other water additives (such as bacteria or enzymes), always apply GreenClean Granular first and wait several hours before adding any other products.
- Re-treat areas if re-growth begins to appear. Allow 48 hours between consecutive treatments.
- Maintain ponds with GreenClean Granular maintenance rates at a frequency appropriate for your environmental conditions.
- After application, do not allow undiluted granules to remain in an area where humans or animals are exposed. Sweep up or remove undiluted granules. Undiluted granules may also be eliminated by thoroughly hosing down with water.
- Non-target plants will suffer contact burn if undiluted granules are accidentally spilled on them. Do not apply in such a way that the concentrated product comes in contact with flowering plants.
- **Never apply at higher than the application rates indicated under the Directions for Use, as desirable plants could be potentially harmed.**
- Do not tank mix with aquatic herbicides or algacides containing copper or bromides. Always apply GreenClean Granular at least one day prior to the application of these products.

EFFECTIVENESS FACTORS

- Effects of GreenClean Granular treatment are immediately apparent (bubbling, bleaching/discoloration of algae, floating dead organic matter).
- **GreenClean Granular treatments are successful when contact of the pesticide is made with the algae.**
- Liquid applications will not sink through the water column as readily as a granular application.
- When treating surface mats and blooms, it is possible that GreenClean Granular will not penetrate the water column below the infested area, and a second application is then required for treating any bottom growing algae.
- Apply more often during the summer months when water consumption and temperatures are high.

APPLICATION METHODS

SPREADING / BROADCASTING: Broadcast GreenClean Granular with a mechanical spreader or by gloved hand, directly on the water surface, from shore or from a properly equipped boat. A hand spreader or any other applicator that will insure uniform coverage is acceptable.

SPOT TREATMENT: Apply GreenClean Granular directly over the infested area. Re-treatment is required when heavy growth occurs.

& KEEPS WATER CLEAR**

Get Algae-Free water with GreenClean Granular Algacide!

YOUR POND SIZE	CURATIVE RATE
50 gallons	1 Tablespoon
100 gallons	1.5 Tablespoons
500 gallons	0.5 Cup
1,000 gallons	1 Cup
5,000 gallons	5 Cups
10,000 gallons	10 Cups

- ✓ Works great on ornamental streams and waterfalls
- ✓ Great for pond-less waterfalls
- ✓ Effective over a wide range of pH conditions
- ✓ For use in water features containing live fish and plants
